

Aerial Surveillance Systems, Inc.

Who We Are:

Aerial Surveillance Systems, Inc. was formed to fill the need for a responsive, focused and customer-oriented company to expertly, rapidly and reliably handle all facets of Airborne I.S.R. and Aerial Surveillance and Reconnaissance Project Development and Completion.

We are **entrepreneurial, aggressive and customer-driven** - and what we are not: **is bureaucratic and monolithic!**

We provide quick and cost-effective solutions to all our customers' specific Aerial Surveillance and Reconnaissance requirements.

The following value-added services are provided:

- ❖ Manufacturers of the SkyEye 350 Multi-Role, Turn-Key, Low Cost, Special Missions Aerial Surveillance Platform based on the Proven, Rugged and Reliable Hawker Beechcraft King Air 350 Series Aircraft.
- ❖ Aircraft and Helicopter Acquisition and Sales for Specific Aerial Surveillance Missions and Applications.
- ❖ Installation and Integration Experts for the Full-Line of Electro Optical/Infrared and Surveillance Systems.
- ❖ Custom and Build- To-Order Modification, Installation, and Integration of the Full-Range of ISR and Special Mission Products and Services in both Fixed and Rotary Wing Aircraft.
- ❖ Sophisticated Systems Engineering and Integration, Including Project Supervision, Oversight and Completions for All ISR, Special Missions and Airborne Applications.
- ❖ Turn-Key, Full-Service ISR and Persistent Aerial Surveillance Platform Leasing, on an Hourly and/or Monthly Basis – Short and Long Term.
